

MIX BOX

INNOVATION FOR GROWTH.

MIX BOX

Conceived and designed by wine industry and arboriculture professionals, the mixbox hopper guarantees a perfect mixing of your chemicals - no dust, no splashes and no foam effect.

Perfectly sized, at the height of the human body (1.20m), it allows safe and easy work. It meets environmental standards and comes with a rinsing nozzle to ensure thorough rinsing of the tank.

STANDARD EQUIPMENT AND FEATURES:

- Capacity: 330L
- Mix capacity: 80 kg of powder
- Dimensions: Height = 1.20m / Diameter = 0.80m
- Weight: 65kg
- Stainless steel, single phase pump
- High density polyethylene tank, rot-proof and resistant to UV light with 15-year warranty
- Can waterfeed your own sprayer during mix preparation

BENEFITS:

OPTIMUM STIRRING

- Very fast solubility
- Keeps the products in suspension
- Homogeneous mix
- No leftover waste at the bottom of the tank

QUICK & PRECISE

- Fast tank filling
- Total draining and emptying
- No splashes, no dust and no foam effect

CONVENIENT & ERGONOMIC

- Handling of the chemicals at the right height
- No risk of the user falling
- Palletizing is possible
- Easy access to the pump for maintenance

HIGH ENVIRONMENTAL QUALITY

- Meets environmental standards
- Integrated tank rinser
- Safe feeding network due to the backflow prevention valve
- 100% recyclable tank
