

SINGLE IN ROW

DOUBLE IN ROW

OPTIONAL ACCESSORIES

MULTI-MAST

The ERO mast unit, along with the electronic joystick can be used to mount other ERO tools such as trimmer, pruner and cane sweeper to save you time and money.

JOYSTICK CONTROLLER

Control the entire machine from your fingertips with the electronic proportional joystick. Includes emergency stop and rest arm.

HYDRAULIC ADJUSTMENTS

Functions such as angle of mast and angle of Defoliator heads can be adjusted hydraulically 'on the go', ideal for contoured or terraced vineyards.

HYDRAULIC PRE-CUTTER

Mounted on the leading edge of Defoliator head to trim away shoot prior to the rollers passing, allowing an improved result without trimming canopy first.

ROLL-OVER DEVICE

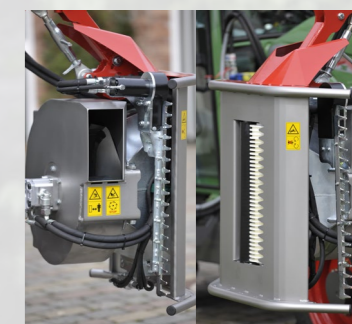

Allow the Roller Defoliator head to pivot a full 180 degrees at the end of each row. Ideal for vineyards that only want to defoliate one side of the canopy.

ERO DEFOLIATOR 'ELITE'

SPECIFICATIONS

DEFOLIATOR HEADS

Simple and extremely effective, the steel impeller fan creates suction behind two counter rotating rollers, pulling leaves against the rollers and allowing them to be gently 'plucked' from the vine without damaging fruit or trellis.

PARALLELOGRAM LINKAGE

Defoliator head follows contours at an optimum position against the canopy with sufficient pressure whilst ensuring fruit and canopy are not damaged.

SAFETY BREAK-AWAY

Spring tensioned break-away system with automatic return protects the defoliator against damage in the event of impact with post or obstruction.

LONGEVITY

Designed and built in Germany and extensively tested in Australasian conditions for long life and reliability.

ANGLE ADJUSTMENT

The Roller Defoliator head angle can be adjusted to suit the canopy style and the desired result. Hydraulic adjustment available as option.

OR 'ELITE'

VITICULTURE. IT'S ALL WE DO.

FMR represents some of the world's best-known equipment brands, and we develop our own technology in-house to meet the more specific and often unique requirements of viticulture in Australasia.

As a specialist, we believe in doing one thing and doing it well. That's why our sole focus is on providing viticulturists with the very best equipment for mechanising day-to-day tasks.

Our goal is simple: we want you to do a better job, in less time, for less cost, and enjoy it more.
